PROFESSIONAL SUMMARY

Full-Stack Engineer with **4+ years** building scalable systems using **MERN**, **Java**, and **Spring Boot**. Experienced in system design, performance optimization, and end-to-end feature delivery in product environments.

SKILLS

Languages	TypeScript, Java, SQL
Backend & APIs	Node.js (Express, Fastify), Spring Boot, GraphQL, REST
Databases	PostgreSQL, MongoDB, Redis, Elasticsearch
Frontend	React.js, Angular
Cloud & DevOps	AWS (ECS, Lambda, S3, EKS), Docker, Kubernetes, CI/CD (GitHub Actions, Jenkins)

PROFESSIONAL EXPERIENCE

Software Engineer 1 Apr 2025 – Present
Kaplan *Bangalore*

Atom Educator — *TypeScript, GraphQL, Redis, ES* — Link

- Engineered **Deep Linking Assignment Scheduler** for LMS integration of Kaplan assignments, driving adoption across **200+ institutions**, reducing **setup time by 70%**, and unlocking a new revenue channel.
- Owned end-to-end **zero-downtime migration of 600K+ live testing sessions** (<**55min**) using batched processing and selective Redis caching, ensuring zero student data loss during critical platform cutover.
- **Reduced GraphQL latency by 80%** (7s → 1.4s) for 10K+ concurrent users by introducing lazy loading, Redis caching, and optimized MongoDB queries.
- Designed and delivered **Engagement Dashboard** with cohort-level performance insights, real-time KPIs, and advanced filters, empowering MCAT educators to make data-driven decisions at scale.

Software Engineer Aug 2022 - Apr 2025
eMudhra Limited *Bangalore*

eMudhra Products — *Node.js, SpringBoot, PostgreSQL, Express, React.js*

- Spearheaded **emSign S/MIME Plugin** slashing email security onboarding from **30min → <60s** — achieved **90% reduction in config errors** and **75% drop in support tickets**.
- Architected Aadhaar **eSign** Java SDK and **Remote Signing Service** processing **10M+ digital signatures/month**, reducing client integration time from months to days.
- Delivered **Instigo**—a SEBI-compliant eKYC-as-a-Service platform—enabling instant demat/trading account openings; streamlined **1M+ annual onboardings** with real-time verifications and liveliness checks.

PERSONAL PROJECT

WiseBin **(Waste Management SaaS)** — *Node.js, TypeScript, PostgreSQL, AWS, FCM*

- Independently built multi-tenant SaaS backend serving **65+ enterprise clients** with order lifecycle, truck logistics, and audit workflows tracking.
- **Reduced manual ops by 80%** by automating pickup scheduling, driver workflows, and report generation (CSV/PDF); implemented RBAC-secured JWT auth, across multiple user roles.

EDUCATION

Bachelor of Engineering (ECE), *PES College of Engineering, Mandya* 2015 - 2019

PUC (PCME), *Sadvidya Semi-Residential College, Mysore* 2013 - 2015
